1950-1951 Offering Of 300 Different FLOWERING TROPICAL TRE

COCHLOSPERMUM

*COCHLOSPERMUM (C. vitifolium) West Indian tree bearing gorgeous 4-inch brilliant yellow flowers in March. Blooms as small shrub. Finest of ornamentals in South Florida. 12-15" \$1. 15-18" \$2. Larger sizes available. Write for prices.

°YELLOW SILK COTTON (Cochlospermum gossypium). Finer and more floriferous than the West Indian species. Rare. 8-12" \$2.

*DWARF AFRICAN TULIP (Spathodea nilotica). This Kenya evergreen tree bears brilliant red tulip-like flowers much of the year like its famous relative campanulata) but keeps them down where you can see and enjoy them. 12-18" \$2.

WHITE TULIP (Dolichandrone crispa). Evergreen Indian tree allied to Spathodea, lovely white tulip-like flowers.

ONCOBA

ONCOBA (O. spinosa). Bushy Arabian tree, lovely white camellia-like flowers twice a year. 12-18" \$1.

°CHORISIA (C. speciosa). Thornytrunked South American tree, 4-inch white or pink lily-like flowers in Nov. 8-15" \$2.

TREE IXORA (I. macrothyrsa). Finest of all ixoras, big heads of crimson flow-

AFRICAN ORCHID (Honckenya ficifolia). Evergreen shrub, copious purple orchid-like flowers all summer. 2-3' \$3.

*NEEDLEFLOWER (Posoqueria latifolia). Evergreen West Indian small tree, 6-inch tubular flowers. 3-4' \$5.

TABEBUIA---Our

°SALVADOR PINK TRUMPET (T. pentaphylla). National tree of Salvador because of spectacular pink flowers in several shades. Evergreen, stands wind and water. 12-15" \$2.

CUBAN PINK TRUMPETTREE

*CUBA PINK TRUMPET (T. pallida) Most widely planted of evergreen species, this small tree rarely exceeds 15 feet, covers itself with shell-pink flowers several times a year. Ideal street tree. I recommend this and next item above all others. 12-15" \$1. 4-6' \$5.

°DECIDUOUS PINK TRUMPET (T. pallida No. 2). Much like the Cuban tree, but foliage very glossy, almost oily. In March it drops its leaves suddenly and becomes a solid pink bouquet, often spectacular. Highly recommended. 12-15"

*TALL PINK TRUMPET (T. pallida var). This sport of the Cuban tree recommended for narrow parkways because of slender style of growth. 15-18" \$1.

RED-PINK HYBRID TRUMPET (T. pallida T. haemantha). This cross two Cuban trees, one pink, the other bright red, should be really something. 6-8" \$1.

*SILVER TRUMPET (T. argentea). This best-known Paraguayan tree has silver gray leaves, bears enormous quantities of golden trumpet flowers in March. Many call it "Tree of Gold." 12-15" \$1. 18-24" \$2. 3-4' \$4.

PALMER'S TRUMPETTREE

*PALMER'S TRUMPET (T. palmeri). This Mexican tree, first to bloom, often about Christmas-time and on into February, bears heavy clusters of purple or mauve flowers. Very fine. 6-8" \$2.

Finest Yard

*PORTO RICAN TRUMPET (T. glomerata). Spreading small tree with soft light green leaves, bearing great quantities of golden yellow flowers in early spring. Beautiful tree for small yard. spring. 1 8-12" \$1.

°MEXICAN TRUMPET (*T. chrysan-tha*). Famed beauty bearing large golden flowers in great profusion. One of the finest. Large, soft leaves. 8-12"

TECOMA SP. (My No. 1101.) A other new introduction, probably is *Tabebuia*. 6-8" \$1.

*ROSE TRUMPET (T. rosea). Colombian species of slender growth, evergreen, bears lovely dark pink trumpet-shaped flowers among the leaves several times a year. 4-6' \$4 up.

*PURPLE TRUMPET (T. sp. No. 1076). Lovely evergreen tree from Southern Mexico with quantities of purple flowers in February. 5-6' \$5.

TECOMA MOLLIS. This new introduction from northern Queensland is un-known here. Belongs doubtless with the *Tabebuia* trees. Yellow flowers, probably evergreen. 8" \$1. evergreen.

YELLOW ELDER

°YELLOW ELDER (Stenolobium Yellow-flowered evergreen Flor-b or tree to 30'. Makes big show ida shrub or tree to 30'. Make twice a year. 2' \$1. 3-4' \$3.

LADY OF THE NIGHT (Brunfelsia americana). Evergreen West Indian shrub with heavily fragrant white tubular flowers. 2' \$2. I can supply B. eximia and an unidentified white species. Inquiries invited.

CORNUTIA (*C. grandifolia*). Costa Rican evergreen shrub or small tree of Verbena family bearing quantities of small blue flowers, often showy. 1-2" \$1. 3-4'

ALBIZZIA RICHARDIANA. Lofty, stately, quick-growing Madagascar tree with feathery leaves, insignificant whitish flowers. "One of the most beautiful trees in Calcutta" because of distinctive growth. 8-15" \$1.

MY 555 CLUB

The world's finest flowering tropical trees are 555 in number. Those of top quality as ornamentals are marked in this list with a star (°). Buy quality.

°GEIGERTREE CORDIA (C. sebestena). Evergreen Florida native with gorgeous orange flower clusters all year. 15-24" \$1. 6-8" \$10.

GEIGERTREE CORDIA

WHITE CORDIA (C. alliodora). White flowered West Indian tree, showy

in flower. 6' \$5. SHOWY DILLENIA (D. indica). Beautiful Indian evergreen small tree, white magnolia-like flowers. 2' \$1. 3-6

*HEBESTIGMA (H. cubense). Showy, white-flowered Cuban dooryard tree. 15" \$1. 2-3' \$5.

LIPSTICK TREE

°LIPSTICKTREE (Bixa orellano) Small evergreen tree, dense heart-shaped leaves. Large pink flower clusters in Nov.-Dec. like peach blossoms. Reddish soft-spined pods contain red dye. 5-7° \$6.

RED WRIGHTIA (W. coccinea). Evergreen Indian tree, crimson allamandalike flowers. 3-5' \$4.

*MILLINGTONIA (M. hortensis). Graceful feathery evergreen tree of Big-non family, with white tubular flowers.

CURRY TREE (Murraya koenigi). Citrus relative whose leaves are prized for spicy fragrance used to make curry sauce. 8-15" \$1.

JATROPHIA. These are shrubs or small trees, flowers red except *J. standleyi* (purple) 3' \$3. *J. podagrica*, Mexican. 8-12" \$1. *J. multifida* 18-24" \$1. *J. hastata* 6-10" \$2.

TREE OF SADNESS (Nyctanthes ar-This Indian shrub or small bor-tristis). This Indian shrub or small tree of the Olive family with rough quad-rangular branches, bears highly fragrant, rangular branches, bears highly fragrant, orange, tubular, jasmine-like flowers with 1½-inch white spreading lobes. These open at evening, drop at sunrise. Cultivated throughout India for its flowers which are used in garlands. Blooms all year. New introduction in U. S. Rare and beautiful. 12" \$5.

FREE!! ABSOULTELY

The most beautiful blue-flowered vine, with evergreen foliage, that you have ever seen, is BIGNONIA MAGNIFICA. Here is a picture of it. Blooms all the year. Thrives from Key West to Jack-

I will give a well-established plant of this prize beauty ABSOLUTELY FREE with every order for \$8 or more worth of trees on this list. I have only 50 of these free plants, so hurry if you want one. You have to ASK FOR IT when you order.

None of these for sale to anybody. All reserved for gifts to my customers.

large bearing quantities of bright royal high, but in this country repurple flowers twice a year. 18-24" \$2. feet. 6-8" \$2. 2-3' \$3.

"FLAME BOTTLE TREE (Brachychiton acerifolius). One of the most brilliant of Australian flowering trees. Dropping its leaves for the flowering period, the tree becomes an object of great beauty, as though on fire. Leaves are shiny, dark green, and maple shaped. The tree is ing in the lower content of the content of the flowers in great drooping clusters. Likes lots of water—a good tree for planting in the lower content of the flowering as to offset the smalling in the lower content of the flowering as to offset the smalling in the lower content of the flowering as to offset the smalling in the lower content of the flowering as to offset the smalling in the lower content of the flowering as to offset the smalling in the lower content of the flowering as to offset the smalling in the lower content of the flowering as to offset the smalling in the lower content of the flowering as to offset the smalling in the lower content of the flowering as to offset the smalling in the lower content of the flowering are content of the flowering as the flowering

THAT WILL SURVIVE OCCA.

*EUCRYPHIA NYMANENSIS is a sup erb hybrid between E. cordifolia and E. glutinosa. It is evergreen, upright, very free flowering when established, hardy. For a small garden which has shelter room for a columnar tree 30 feet high, this could not be better. Small plants \$2.

*LILY-OF-THE-VALLEY TREE (Clethra arborea). One of the very best small trees that can be grown in North Florida It makes a very handsome evergreen; in August-September it is covered with clustered sprays of scented, white flowers, rather like lily-of-the-valley. A good plant of this in flower is a wonderful sight. The plant grows fast-flowers early in life. Strongly recommended for North Florida, especially where woodland shelter is available. Even when apparently killed by a heavy freeze, it usually breaks again from ground level. 15". \$2.

The large bottlebrush flowers uary-March-clusters of golden yellow,

°SHOWY BOTTLEBRUSH (C. speci- CAZARA LANCEOLATA has decorative upper side of the arching growths. 8-15"

temperatures to 15 degrees. 6 foot specimens \$10. well in climates like North Florida. They like leaf mold.

*CHILEAN FIRE BUSH (Embothrium coccineum). Rated by some "the showiest flowering tree in the world." vides the most vivid flower-sight in climates like North Florida. The catherine wheels of orange-vermilion shine with astonishing brilliance, especially in evening light. It reaches 30 feet when happy, with dark, oblong leaves, and flower clust ers on new wood near the end of the shoots. 8-15". \$3.

EMBOTHRIUM needs acid soil. Seedlings are very sensitive to root disturbance in spring, but can be handled more easily if left until autumn. Will survive tem *NEW ZEALAND CHRISTMAS TREE peratures as low as zero degrees. Careful staking is required as young plants shoot

VINES

Who wants an old vine? Or a young one even. Of course if you insist, I can furnish that exquisite STEPHANOTIS FLORIBUNDA with its waxy white flowers at \$5, but why bother? Or maybe you like those magnificent pink sprays of CONGEA TOMENTOSA to the tune of 85. While the supply lasts you can have BIGNONIA VIOLACEA with its lovely paired purple trumpet flowers, for \$2, but if you call it by the new name botanists have given it (Clytostoma) the price is higher. There is nothing lovelier than the QUEEN'S WREATH (Petrea volubilis) which I have at \$2 and \$3, depending on size; if you wait till next year it will be \$4. And if you want a big show, try COMBRETUM GRANDIFLORUM with its brushy red flowers; it's \$2 and \$3, depending on size. (The \$2 ones are just as big as the \$3, so hurry.) But why plant vines when you can grow TREES? Read the rest of this list and forget about vines. I even give them away, especially that gorgeous BIGNONIA MAGNIFICA. picture and FREE offer elsewhere.

TREE CRAPEMYRTLES
